Demonstrations in Practical Agriculture. n this exercise the class is taken to the field or stable and given instruction in performing the simplest fundamental operations in the daily work of the farm. For example, the student is taught the proper method of currying a horse, how to take apart and put together a harness, and harness and unharness a single horse or a pair, to drive and to handle a team under a variety of conditions. He is taught how to milk and how to handle the various farm tools. Soils, Composition and Classification. Preceding study of methods of cultivation, the student should know how soils are formed, of what they are composed, the relation of different kinds of soil to water, heat and air; the effect of varying proportions of humus, clay or sand, and the reasons why soils of different compositions have different characteristics; The mechanical, physical and chemical effects of water, showing the...

### Reviews

*This publication might be well worth a read, and much better than other. It really is simplified but excitement inside the 50 % of the book. You will not feel monotony at whenever you want of the time (that's what catalogues are for concerning when you check with me).*

-- **Imogene Bergstrom**

*Simply no phrases to clarify. It is really basic but surprises from the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*
