Ethereal. Paperback. Book Condition: New. Paperback. 138 pages. Dimensions: 9.0in. x 6.0in. x 0.3in. Within these pages is an introspective expos on the thoughts that strangle the mind of a young poet, in a world that is trying so hard to stray from the truth. This compilation of poetry, art, and metaphysical lyrical prose was strung together to demonstrate a means of circumventing the torturous system of wage-based slave labor, and to show ways to cope with daily life in the distorted society we were born into. Also, to open others up to their own means by helping them find their way towards doing what they love. An undertaking to bridge spirituality and science together with logic, to sift out the unified truth from the subjective falsities. To show that the personality we associate with is much more than the makeup of our genealogy, or our alignment in astrology. Each one of us is also a soul of thousands of incarnations. This publication is in itself an artists endeavor to backpack across the US and further. An attempt to create a state of clarity by shedding light on our true state of self and its influences. It will be brought to open mics, open stages, open corners, open living rooms, open arms, minds, and eyes the world over as a part of the awakening of the times, and to spread a sense of urgency for us to save the Earth and ourselves. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
