

ASP.NET in a Nutshell (Second Edition)

By Steve Qualline

O`Reilly/Shroff Publishers & Distributors Pvt. Ltd., 2003. Softcover. Book Condition: New. 2nd edition. ASP NET in a Nutshell is a concise, one-volume reference to everything you need to make effective use of ASP NET. An invaluable resource that goes beyond the published documentation to highlight little-known details, stress practical uses for particular features, and provide real-world examples that show how features can be used in a working application, ASP NET in a Nutshell is the definitive guide for developers of both applications and web services. Newly updated for Visual Studio NET 2003, the second edition of this book includes fresh information on application and web service development, custom controls, data access, security, deployment, and error handling, new material on web application development for mobile devices, plus an overview of the class libraries. For developers who still use Microsoft`s older ASP technology, this book also provides information for migrating to ASP NET. Like other books in the "In a Nutshell" series, ASP NET in a Nutshell, Second Edition, offers the facts, including critical background information, in a no-nonsense manner that users will refer to again and again. With its wealth of up-to-date information, ASP NET in a Nutshell is a book...
