## C. JULIUS CAESARS COMMENTARIES ON THE GALLIC WAR

To download **C. Julius Caesars Commentaries on the Gallic War** eBook, make sure you follow the link below and save the ebook or have access to additional information that are relevant to C. JULIUS CAESARS COMMENTARIES ON THE GALLIC WAR ebook.

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 56 pages. Original publisher: Hampton, Va. : National Aeronautics and Space Administration, Langley Research Center ; Hanover MD : Available from NASA Center for AeroSpace Information (CASI), 2001. OCLC Number: (OCoLC)51610134 Excerpt: . . . surface ). The Cube orientation possesses moderate intensity in the 2195 and 2096 in both the Skin and Base regions. The consistent differences in textural characteristics between the Skin and Base regions for all three alloys can be attributed to the geometry-dependent variations in material flow during the extrusion process. Taylor-type models have been employed previously with some success to establish texture-processing relationships in rolled product 19, 20, 23, 26, 50, 51 . One such application of a relaxed constraint ( R ) model ( illustrated in Figure 1 ) predicts the formation of the Ex component by allowing 1 simultaneous shearing on the T plane in the L direction ( B-type shear ) and on the S plane in the L direction ( C-type shear ), i. e. the BC model 26 . In contrast, formation of the Brass component is predicted by allowing additional shear on the S plane in the T direction ( S-type shear ), i. e. the BSC model ( The nomenclature employed here is that adopted in reference 26 ). These concepts are applicable to the material flow and resultant textures observed in the near-net-shape extrusions studied here. The L, T and S directions in rolled product are analogous to the A, C and R directions, respectively, in extruded product. During the extrusion process, the diameter of the initial donut-shaped blank is increased ( and the thickness simultaneously decreased ) as it passes over the mandrel within the extrusion die 32 . At the locations where the...
