Pub Date: 2012 Pages: 275 Publisher: Basic Information Title: Machine Press wire and cable materials: structural performance applications Original Price: 46.00 yuan Author: Publisher: China Machine Press Publication Date: July 1. 2012 ISBN : 9787111378778 Words: Pages: 275 Edition: 1st Edition Binding: Paperback: Weight: 440 g Editor's Choice wire and cable materials: structural performance applications are available for engineering and technical personnel engaged in the manufacture of wire and cable. management personnel and the actual The operator read reference; related professional colleges are also available for use as a textbook. The executive summary of wire and cable materials: structural performance applications as the main line to the structure of the material - Performance - Applications to introduce various metallic materials. polymeric materials. composite materials. such as wire and cable industry to use more material. Layman's language popular and concise language structure and its use of the relationship between the environment and performance. is a comprehensive. highly application books. Wire and cable materials: structure and properties of the application is divided into five parts. The first part is a metal material. first introduced the microscopic structure of metals and alloys. and then the elaborate metal macroscopic properties and microscopic structure of the relationship as well as influencing factors. mainly in copper and aluminum and other metal materials performance. features and applications. The second part of polymer materials. polymer structure and polymer aggregation structure. as well as polymer composite structures; described the polymer electrical properties of macroscopic properties and microstructure of the relationship as well as the impact of factors; were introduced wire and cable. plastic and rubber structural performance characteristics and applications; briefly discusses the Polymer Alloy basic theory....
