American Psychiatric Association Publishing, United States, 2014. Hardback. Book Condition: New. 254 x 180 mm. Language: English . Brand New Book. DSM-5 Clinical Cases presents patient cases that exemplify the mental disorders categorized in the newly released DSM-5, bringing DSM-5 alive for teachers and students of psychiatry, psychology, social work, nursing, and related mental health and healthcare fields. A brief discussion follows each case, analyzing the clinical presentation, highlighting key points, and exploring issues of comorbidity that may complicate both the diagnosis and subsequent treatment. This approach is especially helpful since few cases in real-life are unambiguous. Easy-to-use appendixes enable readers to locate cases by type of disorder, special interests, and DSM-5 diagnosis. The book is designed to serve as a companion text in a variety of contexts - from abnormal psychology courses to medical school and residency training programs. In addition, those studying for specialty examinations will find...
