Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.This is the first book written about expressive puppetry and how to use puppets when providing care for people of all ages and levels of functioning. Marge Schneider created the first expressive puppetry program for adults in the United States, helping clients with dementia and depression find their voices and tell their stories. Now she shares her two decades of experience as an educator, complementary therapist, and spiritual counselor, helping those who provide care to clients or loved ones make authentic, heart-to-heart connections. A Hand In Healing is both spiritually based and a how-to guide in expressive puppetry. Through stories that will inspire and mentor, this unique book offers insight into Marge's exploration of deep expressive places that are not typically reached with cognitive techniques. People with dementia and depression are often unable to respond effectively to cognitive therapy, which can leave clinicians frustrated at the limited approaches available to help their clients heal. Learn how to reach beyond the barriers of dementia and depression and how to help children and teens with challenging emotional issues. See how numerous health care professionals have helped transform the lives of their clients using puppets as their therapeutic healing tools. This book helps hospital, nursing home, and hospice staff to dramatically enhance their insight, sensitivity, and compassion. Too often, both staff and family members assume that their loved one or client with dementia is vacant and has no story left to share. However, A Hand In Healing shows there is usually a story deep within waiting to be told and honored, and that establishing and deepening the connections with family and staff is the best way to elicit these stories....
